Neighborhood Traffic Calming Program

RESPECT Our Neighborhood Drive 25!

City of Las Cruces®
PEOPLE HELPING PEOPLE

RESPECT Our Neighborhood Drive 25!

The Neighborhood Traffic Calming Program (NTCP) is a resource to aide those residents taking responsibility for the problems that all drivers create. Its success rests with you, the residents, taking the initiative otherwise it runs the risk of returning to the situation of everyone blaming everyone else for the problem. The program involves a joint effort between the residents and the city to improve traffic safety in their neighborhood. Be a part of the solution NOT the Problem.

As a driver…
know and obey the speed limits!

For more information on the City's Neighborhood Traffic Calming Program, please contact:
