

# MUSEUMS

 **City of Las Cruces**

## Tours

Our museums offer guided tours of exhibits to community and school groups. **Reservations are required to ensure appropriate staffing levels for a quality museum experience.** We request two weeks' notice to plan for tours.

Tours can be arranged to visit multiple museums in the same trip. Large groups may be split and rotated between the museums to fit comfortably in exhibit spaces.

- The Branigan Cultural Center offers guided tours of the *Las Cruces: Crossroads of History* exhibit, as well as tours of changing exhibits.
- Tours at the Las Cruces Railroad Museum explore the historic building and grounds at the 1910 Santa Fe Railroad Depot. Operation Lifesaver presentations are also available to promote safety around trains.
- The Las Cruces Museum of Art offers tours of changing exhibits focusing on regional, national, or international art.
- Tours at the Museum of Nature & Science focus on Space in New Mexico, Paleozoic Trackways, and the Chihuahuan Desert.

**Please contact Garland Courts at 575-647-4480 or at [museumeducation@las-cruces.org](mailto:museumeducation@las-cruces.org) to arrange other activities and extensions to the tours.** These activities require extra time to plan.

An off-street bus loading area and parking are available at 500 N. Water Street.
