

**What
can you
do to
make
the
streets
safer?**

As a driver...know and obey
the speed limits!

Regardless whether
commercial or residential
if the speed limit is
NOT posted...

the speed is
30 MPH!

PEOPLE HELPING PEOPLE

Las Cruces Police Neighborhood Enforcement Team (NET)

What is the NTCP?

The City of Las Cruces has implemented a Neighborhood Traffic Calming Program (NTCP) to address neighborhood concerns. Traffic calming is an attempt to slow or reduce traffic on residential streets whether the speeding is caused by residents or cut-through traffic. The program involves a joint effort between the residents and the city in an effort to improve traffic safety in their neighborhoods. The most common concerns expressed to the city is about speeding traffic in residential neighborhoods.

How Does The NTCP Work?

EDUCATION

As a resident...get involved. Know what is offered to you and your neighbors.

- **Yard Sign** – given FREE of charge to any resident.
- **Radar Dolly** – is a speed advisory unit that is available for any resident to sign out for up to three business days.
- **Las Cruces Police Neighborhood Enforcement Team (NET)** – working hand and hand to ensure the safety of our neighborhood streets by monitoring and enforcing traffic safety throughout Las Cruces.

NTCP TIPS

Be a part of the solution NOT the problem!

Recognize that your driving affects the safety and livability of other people's neighborhoods, just as it does your own neighborhood.

- Drive within the speed limit and obey all traffic regulations.
- Share the road safely with pedestrians, bicyclists and other drivers.
- Be extra cautious near schools and children and stop for all school buses.
- Walk, bike, bus or share a ride when possible to help reduce traffic.
- Stop at all stop signs.
- Stop at all red lights.
